2021

Annual UTILITIES Meter to Cash Conference

NOVEMBER 1-3, 2021
ATLANTA GEORGIA

Grand Hyatt Atlanta in Buckhead

Formerly known as the Utilities AR & Uncollectibles Conference, the event is now expanded to cover the entire utility meter to cash cycle. It is an outstanding educational event specifically created for utility industry professionals and solution providers. Attendees learn from industry experts and share best-practices designed to improve operational and financial performance. The Conference brings an unparalleled and personalized approach, connecting individuals to meet, learn, network and develop business relationships. The AGA supports the event as an industry sponsor..

Our goal is to provide a high-quality educational conference which benefits utility company attendees, industry solution providers and sponsors. We invite and encourage utility company vice presidents, directors, managers, supervisors, analysts and other industry professionals to attend. There are hours of learning, including case studies, and a utilities only session.

After a pause for the pandemic, the venue will return to the Grand Hyatt Atlanta in Buckhead. The hotel is a perfect combination of sophistication, state-of-the-art amenities, and southern charm. Conveniently located on Peachtree Street, Atlanta. The Buckhead, Atlanta hotel puts you in the heart of Atlanta's best shopping, dining, sports and live music.
